An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on July 8, 2005, an extension of time for ONE MONTH has been requested and authorized the Director to charge Deposit Account No. 23-0650 the required fee of \$120 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 7, replace "component" with --resin--.

Claim 12, line 6, replace "partially cured mixture of said epoxy composition and said phosphor material" with --composition comprising an epoxy resin, an anhydride component, a polyol for promoting the reaction of said epoxy resin and anhydride component, and a visible light-emitting phosphor material--.

The following is an examiner's statement of reasons for allowance:

The specification on pages 13-14, Examples 1 and 2 shows the criticality of the claimed composition wherein the phosphor is uniformly distributed throughout the composition by initial curing prior to partial curing, or B-staging. Example 1 representative of the closest prior art to Japanese Patent No. 52-15539 shows a non-uniform distribution of phosphor via only B-staging.

Art Unit: 1712

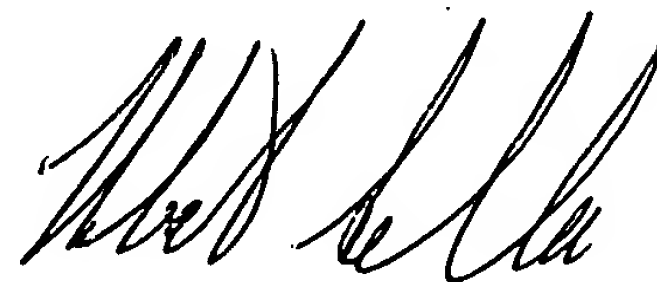

Example 2 representative of the claimed product-by-process exhibits uniform distribution by the claimed initial partial curing and B-staging.

Such a showing also distinguishes over the claims of related application nos. 10/667,706 and 11/027,909 which are directed to the claimed composition with further components wherein the instantly claimed combination of initial partial curing and B-staging to attain uniform distribution of the phosphor is not recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Sellers whose telephone number is (571) 272-1093. The examiner can normally be reached on Monday to Friday from 9:30 to 6:00. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
